

To access your College Documents go to <https://drive.google.com> and sign in using your College account if prompted.

Your documents will be stored in either [My Drive](#) (your personal documents) or [Shared Drives](#) (shared and departmental documents)

You can create new documents from the [New](#) button and choose the type of document or folder you wish to create

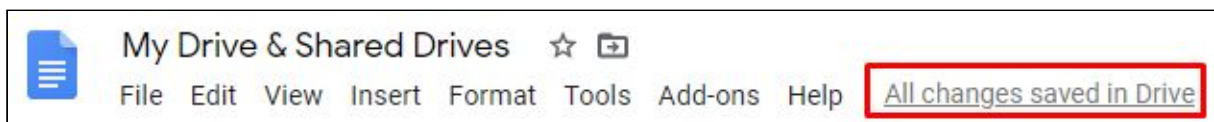

If someone shares a document with you you can access it from the [Shared with me](#) menu item or from the email you receive to advise you the document has been shared with you

You can search your Drive using the Search box at the top of the Drive window with advanced search options available from the drop down arrow

Documents will automatically save when using Google Docs, Sheets, Slides & Forms with the save status being shown in the menu bar

You can also click this status to show previous versions of the document and roll back if required.
